Portfolio: <https://portfolio-wokorach.vercel.app/>

PROFESSIONAL SUMMARY

Software Engineer with 8+ years of experience designing and delivering scalable web applications and cloud-integrated systems using React, TypeScript, and modern engineering practices. Proven ability to work calmly under pressure, collaborate across cross-functional teams, and deliver reliable solutions supporting high-availability production environments. Focused on continuous improvement, system performance, and long-term technical growth.

CORE SKILLS

Frontend: React, TypeScript, JavaScript (ES6+), Next.js, HTML5, CSS3, Responsive Design, Accessibility (WCAG 2.1)

Backend & APIs: Node.js, Express, Python, REST APIs, SQL, PostgreSQL

Cloud & DevOps: AWS, Docker, Kubernetes, Jenkins, CI/CD, Git, GitHub

Testing & Quality: Jest, React Testing Library (RTL), TDD, Unit Testing

Tools & Practices: Agile Scrum, Jira, Confluence, DevTools, Microservices, SDLC

PROFESSIONAL EXPERIENCE

Software Engineer (Cloud Microservices & Production Systems) – Sky, Osterley, London, UK

06/2024 – Present

- Develop React and TypeScript components for internal engineering dashboards supporting catalogue, pricing, and billing workflows.
- Integrated REST APIs with AWS-based microservices, improving system reliability and reducing response latency.
- Collaborating within Agile Scrum teams to deliver production features using CI/CD pipelines and structured Git workflows.
- Contribute to cloud-native distributed systems deployed using Docker and Kubernetes to support operational stability.

Front End Developer – Applied Technology & Innovation Community, Lloyds Banking Group, London, UK

09/2018 – 01/2020

- Developed scalable and accessible enterprise event platform interfaces using React, Node.js, and JavaScript.
- Implemented responsive UI components aligned with WCAG 2.1 accessibility standards.
- Delivered features within Agile sprint cycles, improving delivery consistency and platform usability.
- Built reusable component libraries aligned with enterprise design systems.

Web Developer / Backend – Innovation & Architecture and Strategy, Lloyds Banking Group, London, UK

03/2016 – 09/2018

- Developed backend solutions using Python for internal automation and innovation tooling.
- Supported development of Neo4j graph database platform improving organisational search capabilities.
- Designed UX prototypes and proof-of-concept applications integrating AI assistant features.

EDUCATION

- BTEC National Diploma – Hammersmith & West London College (2007 – 2009)
- BTEC First Diploma – Hammersmith & West London College (2006 – 2007)
- GNVQ Foundation – Hammersmith & West London College (2005 – 2006)

CERTIFICATIONS

- Codecademy – React, Express, Python, Search Algorithms (2025)
- HackerRank – JavaScript REST API, Problem Solving, SQL, Angular, Front-End Developer (React), Software Engineer (2025)
- TypeScript Programming Certification (2025)
