PROFESSIONAL SUMMARY

Frontend Software Engineer with commercial experience at Sky and Lloyds Banking Group, specialising in React, TypeScript, JavaScript, and modern web development. Experienced in building scalable, accessible, and high-performance web applications, integrating REST APIs, and delivering production-ready solutions within Agile Scrum teams. Strong knowledge of AWS, Docker, Kubernetes, CI/CD, and frontend best practices including WCAG accessibility and performance optimisation.

CORE SKILLS

- **Frontend:** HTML5, CSS3, Responsive Design, Accessibility (WCAG 2.1), React, TypeScript, JavaScript (ES6+), Next.js, Vue.js, Angular.
- **Backend & APIs:** Node.js, Express, Python, RESTful APIs, SQL, PostgreSQL, API Integration
- **Cloud & DevOps:** AWS, Docker, Kubernetes, Google Cloud Platform (GCP), Jenkins, CI/CD, Git, GitHub, Cloud-Native Applications, Microservices Architecture
- **Testing & Quality:** Jest, React Testing Library (RTL), TDD, Unit Testing
- **Engineering Practices:** System Design, Performance Optimization, Observability, Logging and Monitoring, High Availability, Agile Scrum, SDLC
- **Frameworks & State Management:** Redux, Vue.js, Angular, React Native.

PROFESSIONAL EXPERIENCE

Freelance Software Developer

Home, London, UK

01/2026 - Present

- Built a weather forecasting application using React, TypeScript, Next.js, and RESTful APIs, delivering real-time weather forecasts and responsive user experiences.
- Developed a Python 3 and SQL-based application for data processing, storage, and analytics.
- Created a real-time **geolocation and address search application** using the **Google Maps API**, enabling location tracking and address lookup functionality.
- Developed an **AI-powered chatbot** using the **Google Gemini API**, enabling intelligent information retrieval and conversational user support.
- Built a World Cup 2026 match-tracking application supporting 100+ fixtures, time-zone conversion, calendar exports, and automated reminders.

Professional Development

Home, London, UK

09/2025 – 01/2026

- Completed industry-recognised certifications and coding challenges, strengthening skills in React, JavaScript, TypeScript, Python, SQL, REST APIs, and software engineering best practices.

Software Engineer Intern

Sky, Osterley, London, UK

06/2024 – 08/2025

- Developed 15+ React and TypeScript components for internal engineering dashboards supporting catalogue, pricing, and billing workflows.
- Integrated REST APIs with AWS-based microservices supporting catalogue and billing workflows, improving data reliability and reducing manual operational effort.
- Worked with cloud-native distributed systems deployed using Docker and Kubernetes.
- Collaborated within Agile Scrum teams using Git workflows and CI/CD pipelines to deliver production features.

Career Break

World Travel and Personal Development

01/2022 – 06/2024

- Travelled extensively across Southeast Asia, the United States, and Canada, gaining exposure to diverse cultures and communities.
- Attended DeafNation World Expo in Las Vegas, exploring accessibility technology, inclusive design, and communication practices.
- Developed adaptability, cross-cultural communication skills, and a broader global perspective through international travel and personal development.

Senior Front End Developer, Applied Technology and Innovation Community

Lloyds Banking Group, London Bridge, London, UK

09/2018 - 01/2020

- Developed and maintained scalable, accessible enterprise event platform supporting Innovation Communities Conference.
- Designed and implemented responsive, WCAG 2.1-compliant UI components, achieving WCAG 2.1 AA and improving cross-platform performance across multi-device environments.
- Gathered requirements and delivered features within Agile sprint cycles, contributing to consistent delivery timelines.
- Developed reusable UI components aligned with enterprise design systems, improving development efficiency and code consistency.

Senior Web Developer, Backend, Innovation & Architecture and Strategy

Lloyds Banking Group, London Bridge, London, UK

03/2016 - 09/2018

- Developed backend solutions using Python contributing to internal innovation and automation tooling.
- Supported development of Neo4j graph database platform improving organisational search and data visualisation capabilities.
- Designed UX prototypes and wireframes for youth banking mobile application concept integrating parental control features.
- Built proof-of-concept intranet AI assistant improving internal search efficiency and knowledge access.

Junior UI Delivery and Transformation

Lloyds Banking Group, Moorgate, London, UK

03/2015 - 03/2016

- Delivered responsive enterprise web applications across multi-device platforms improving frontend performance, reliability, and user experience
- Improved frontend performance and resolved software defects, strengthening system reliability and user experience.
- Contributed to reusable component libraries supporting scalable and maintainable UI architecture.
- Participated in Agile ceremonies including sprint planning, stand-ups, and retrospectives supporting continuous delivery.

Trainee Digital Transformation

Lloyds Banking Group, Moorgate, London, UK

10/2014 - 03/2015

- Completed an engineering apprenticeship, gaining cross-functional experience across DevOps, Mobile Engineering, and UI Digital Transformation.
- Supported technology teams in delivering digital initiatives and developing foundational software engineering and operational practices.
- Collaborated with multidisciplinary teams to understand software development lifecycles, infrastructure, and digital delivery processes.

EDUCATION

- BTEC National Diploma (DMM), Hammersmith & West London College
- Additional BTEC and GNVQ qualifications

CERTIFICATIONS

- Codecademy: React, Express, Python, Search Algorithms
- HackerRank: JavaScript, SQL, Angular, React, Software Engineer
- TypeScript Certification
